

Conceptual Milestone for Design Technology

EYFS

Explore making something independently and collaboratively explaining what they have done.

Key Stage 1

Begin to use the design approach (design, make, evaluate) to explore and make something for themselves or others for a given purpose.

Lower Key Stage 2

Create a product to meet a given brief using the design approach.

Upper Key Stage 2

Create and refine an innovative product to meet a given brief within a real life context using the design approach.
